Whittington Way,
Chesterfield
S41 9AG

Dear Neil,

Status of Rutland UK towards the Renewal of Certificate No IFCC 1436

Please accept this letter as confirmation of the status of Rutland UK with regards to the renewal of Certificate No. IFCC1436 held for independent third-party product certification with IFC Certification Ltd.

Rutland UK originally gained voluntary third-party certification for their **TS.9205 DABC Door Closer**, in accordance with the requirements of the IFC Certification Product Scheme, on 25th January 2019. The certificate expired on 24th January 2024 and a recertification audit is required to enable renewal of the certificate.

Due to existing commitments, IFC Certification was unable to undertake an audit at the manufacturing sites before the stated expiry date; we are currently in the process of arranging the audit, which will be carried out at the earliest opportunity. We fully expect that the audit will provide verification that Certificate No. IFCC1436 can be renewed for a further 5 years from 25th January 2024, based on previous annual audits of Rutland UK's quality management systems and factory process controls, and this letter is issued whilst your company awaits the renewal, which will follow a successful audit and acceptance of a recommendation for reissue by the IFCC decision maker.

We trust the content of this letter clarifies the status of Rutland UK in respect to the renewal of IFCC Product Certification.

Yours sincerely

MARC STURTIVANT

Overseas Product Schemes Manager
IFC Certification Limited
