Multipoint Lock

Adjustable Keeps.

RMP3 Multipoint Lock

Rutland RMP3 Multipoint Lock provides solutions for doorset manufacturers from it's non-handed lock and keeps, to all 3 keeps being adjustable for ease of installation and self-closing, through to auto locking for ease of use by residents. Supported by Police SBD, the RMP3 multipoint lock is successfully tested for fire, smoke, PAS 24 security, BS6375 weather, repeated opening and closing and strength tests.
