

# Double Action Door Closer Kit

The Rutland Double Action Door Closer Kit is a comprehensive, all-in-one solution designed specifically for double action doors. It enables smooth and controlled door operation with a maximum opening angle of 110° in both directions, making it suitable for a wide range of commercial and public building applications.

The kit set includes a high-performance door closer based of the highly demanded ITS.11204 single action concealed, a top double action door pivot, and a heavy-duty bottom pivot, along with the required intumescent and smoke seals to support fire door integrity. All components have been tested together and are suitable for use on FD60 fire doors.

Detailed installation instructions are provided to ensure correct fitting and reliable performance. Supplied in a single, convenient package, the Rutland Double Action Door Closer Kit simplifies specification, installation, and compliance.
